

Duet Bicycle Participation

On occasion and weather permitting, McCormick Home/McCormick Dementia Services offers interested residents/clients the opportunity to ride a duet bicycle (pictured below). While a staff member rides the bike, the resident/client is safety secured to a comfortable bucket-style seat at the front of the bike. It provides a wonderful recreational experience for participants of varying levels of physical and cognitive ability and allows them to enjoy the outdoors in our secured garden area.

We strive to ensure the safety of each participant and provide everyone with a helmet.

If you/your loved one would like to participate in the duet bicycle program, please complete the form on the reverse page.
